~~~ Teas & Infusions (£1.80 per person) ~~~

**Breakfast Tea** - *There is nothing better than a genuinely 'fabulicious' cup of English Breakfast tea. J&J use a blend of different Assam teas from India's finest tea gardens in this traditional and well-known classic.*

**Earl of Grey** - *The most famous of all the scented black teas, J&J's 'Earl of Grey' is a unique take on the classic, with its zesty lime taste and aroma. Using only the finest black leaf tea with delicious natural Sicilian bergamot oil. Let 'Earl of Grey' brighten your day!*

**Smokey Russian Caravan** - *This exotic blend contains black leaf Keemun, Assam, Darjeeling and Tarry Lapsang Souchong. Inspired by the Silk Road trading routes, this gold award-winning bold black tea contains more than a hint of smouldering alpine forest!*

**Spiced Masala Chai** - *Chai tea, widely known as the national drink in India, literally means spiced tea. The components of chai tea are black tea and spices that are common in India and often associated in ayurvedic medicine.*

**Darjeeling First Flush** - *This beautifully light and elegant handpicked tea is the first flush from one of India's best tea estates – the Gielle Estate. These first young leaves produce the finest tea, earning Darjeeling its 'Champagne of Tea' title.*

**White Tea - China Pai Mu Tan** - *This is one of the most natural and unprocessed teas in the world – derived from white peonies grown in the Chinese Fujian province – nectar for the body and soul. White tea has three times as many antioxidants as green or black tea and is 100% more effective in mopping up free radicals.*

**Green Tea - Dragon Well** - *This Lung Ching tea from Zhejiang, China, is also known as 'Dragon Well' or 'Tea of the Emperor'. With a beautiful jade green colour, mellow nutty taste and fragrant sweet aroma, this ancient tea is packed with youth-giving antioxidants.*

**Fruit Tea - Red Berry Burst** - *Totally 'fruitalicious'! J&J's red berry tisane is an explosion of summer flavour and colour. This is packed full of vitamin goodness and guarantees a taste of summer sunshine year-round.*

**Fruit Tea - Blackcurrant Pop** - *The tart, delicate and intense flavour of blackcurrants and raisins blended with elderberries and an inkling of pineapple sweetness to make for a truly fruity tonic.*

**Camomile Blossoms** - *This is a herbal blend of Egyptian whole camomile flowers rubbed with Spanish lavender. Ideal for relieving colds, soothing the stomach and promotes relaxation and wellbeing.*

**Mojito Mint** - *This is a bespoke herbal blend, combining the assertive zing of peppermint and the calming freshness of lemongrass with the sweetness of lime, marigold and cornflower blossoms.*

**African Rooibos** - *A South African rooibos with malty, tasty aromas that transform into a smooth, mellow taste filled with nutty biscuity flavours with a light, fresh, finish. A fantastic alternative to black tea which is also caffeine free for all day and night drinking.*

**Detox** - *This is a 100% organic detoxifying herbal infusion, specially blended to prove that something that's great for you can also taste totally fabulous! Contains a heavenly blend of coriander, nana mint, orange peel, lemon grass, nettle leaves, cloves, cinnamon, dried apple pieces, ginger root and green cardamom.*
